

## Installation Instructions for 2 Piece Cartridges

Here at Internet-ink.co.uk we have designed a new higher capacity cartridge that comes in 2 parts, simply more ink & less waste plastic.

Simply open and use the larger pack first for each colour as you require them, this is a complete cartridge, ready to use. When this cartridge is empty, simply open the smaller "tank", pull off the coloured "clip" from the old cartridge, and attach it to the new "tank". Then install in your printer !
